- **CGPA:** 8.4

### Projects

## Parking Management System

**Technologies Used:** HTML, CSS, JavaScript

**Description:** Developed a comprehensive Parking Management System using HTML, CSS, and JavaScript. The system provides an efficient solution for managing parking spaces, ensuring a seamless experience for users to register their vehicles and manage parking subscriptions.

### Key Features:

- **User Registration System:** Implemented a robust registration system for users to create accounts and manage their vehicle information.
- **Database Management:** Proficiently handled database operations to store and retrieve user and vehicle data securely.
- **Vehicle Pass Generation:** Developed algorithms to generate vehicle passes tailored to specific timeframes, including daily, monthly, and yearly durations.
- **Intuitive User Interface:** Designed a user-friendly interface enabling users to easily register vehicles and manage their parking subscriptions for various types of vehicles, including cars, bikes, and cycles.

## Astrology-Themed eCommerce Website

**Technologies Used:** HTML, CSS, JavaScript

**Description:** Developed an interactive astrology-themed eCommerce website using HTML, CSS, and JavaScript. The website provides a personalized shopping experience based on the user's zodiac sign, enhancing user engagement and promoting well-being.

### Key Features:

- **User Input System:** Implemented a robust system for users to input their name and date of birth to determine their zodiac sign.
- **Database Management:** Proficiently handled data storage and retrieval to recommend personalized products based on zodiac signs.
- **Product Recommendation Algorithm:** Developed algorithms to suggest products tailored to each zodiac sign, focusing on items that promote positive effects on the mind and body.
- **Intuitive User Interface:** Designed a user-friendly interface enabling users to easily discover their zodiac sign and view recommended products.

## Hackathons/Competitions

- **Myntra HackerRamp 2024:** Participated and got shortlisted for phase 2.
- **DataNexus Hackathon:** Participated and reached the final round.

## Seminar/Training/Workshops

- **45 Days Training in React JS**

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), 3rd Year

- **15 Days Training in HTML, CSS, and JavaScript**

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) Campus, 2nd Year
